LS-2008PD

Specifications

new type: LS-2008PD CCTV Camera DVR system H.264 8CH Full 960H Network Warranty: 2 Y

LONGSE CCTV Camera DVR system

Features :

The LS-2008PD series is a Full 960H Professional grade 8CH Stand alone DVR on the market today. It utilizes an embedded LINUX OS for more stable operation. With independent hardware advanced H.264 video compression technology, offering unmatched image quality at Full 960H:960×480 with 240 Fps (NTSC); 960×576 with 200 Fps (PAL) resolution, true real-time video and much smaller file sizes to give you longer storage time and faster remote viewing capability. Largest recording storage capability up to 4TB is also its high light feature.

This DVR can also record and playback in real-time, more than just a high frame rate and available storage make the LS-9508PD series stand out. It built in web server for remote management can be achieved with standard IE web browser or through the remote client application. You can set independent remote viewing settings including frame rate and resolution for each channel.
