

Top-level performance for the mid-market

Milestone Husky M50 is a rack-mounted solution with high-grade hardware engineered specifically for surveillance, providing reliable top-level performance. Ideal for mid-size installations, the unit has feature-rich Milestone XProtect video management software preloaded for easy control of video surveillance. Backed by the industry's largest community of manufacturers, Milestone Husky M50 works with the widest range of cameras, software integrations and surveillance solutions, ensuring you have the perfect solution today and tomorrow.

Product highlights

Advanced interactive monitoring

- Interactive and multi-layered maps provide a graphical overview of the surveillance installation for prompt response
- Alarm Manager is integrated with the map function for a consolidated overview of security and system alarms
- Advanced video search tools quickly locate recordings for use as high-quality evidence
- Multi-channel, two-way audio for message broadcasts or direct communications

Easy to deploy and expand

- Automatic camera discovery detects and configures any newly added cameras
- Configuration wizards guide users through installation with just a few clicks
- Connecting multiple Husky M30s and Husky M50s makes surveillance solution scalable

Helping you do more

- Access video remotely for faster response to incidents
- Based on testing, the hardware is optimized so you know you have the right, reliable solution for your needs
- Smoother video performance and up to 75 percent reduced CPU load with hardware accelerated decoding
- Optional RAID storage

Support

- **Optional Milestone CARE™ Plus provides** access to software updates and online services such as Customer Dashboard, Smart Connect for mobile and push notifications
- Customer Dashboard is an online system monitoring service so resellers can keep track of technical incidents in the system and proactively solve them
