

XVIEW ENTERPRISE

Extensive Surveillance Viewing

Designed to support some of the largest and extensive client viewing projects, the xVault Enterprise appliance can handle it all. Purpose built for these types of projects, the xVault Enterprise is equipped with dual Intel® Xeon® Processor E5 Series. With the ability to handle a high volume of cameras this viewing solution can also power up to 12 monitors simultaneously. The xVault Enterprise is ideal for supporting large control rooms and video wall projects.

All of xVault client viewing stations are built for the surveillance market. Understanding the high demands of a viewing solution, the xVault Enterprise has been thoroughly tested with leading video management software (VMS) platforms. Optimized for each VMS and the surveillance market, integrators can rest ensured the xVault Enterprise will have exceptional performance for multiple monitor with extensive viewing workloads such as video wall control rooms.

KEY FEATURES

- Ability to handle up to 12 monitors simultaneously
- Ideal solution for video wall control room
- Optimal performance with dual Intel® Xeon™ Processor E5 Series
- Flexible chassis selections with Tower, 2U and 4U Rackmount

Supports large control rooms and video wall projects
